

Life is complicated

Life's too complicated then we die	Cm G
We try to understand never quite do	Cm G
Want to make it simple, only make it worse	Cm Bb
Life is such a joy for some, for some it's just a curse	Ab G

My love is too complicated directed at you
You will never love me, it's something you won't do
I look at you, you don't look back
Or when you do it's like a slap

It's too confusing, but true
You got children more than two
Some live at home best they can do
Life is complicated for them too.

Need to get food for the meals, provide
At the store, so hard to decide.
It's not like we have enough of anything to get by
We fight for the right, stand up or cry

We seek dignity to face ourselves
Look in the mirrors see our lives
Wish it were different but we survived
Life is so complicated then we die.
