

Secret Wishes

When weather's hot hold me tight/ Cool my brow with kisses
Blow softly into my ear/ Many secret Wishes

Chorus

*I'll someday follow through/ I'll someday I promise you
Secret wishes will come true/ If it's the only thing I do*

When the weather's cold hold me tight/ Warm my heart, winter hugs
Put my arm 'round you shoulders/ Hold my hand don't let me go

It's not like when we first met/ The stormy sea's desire
The wind between us raged/ Our eyes burned like fire

*That day will come again/ It's what I promise you
It's you wish I wish it too/ It the best thing we can do*

The kids are gone we tried our best/ To show them how to live
Be kind to every-one you meet/ It seems they follow through

It's quiet now window light/ Sun shines, your skin glows
It's time for secret wishes/ Our wish, our love that's true.
