

Tarot

If I say to you show me tarot
It might tell me where to go
But if you take my arm/ I'll lend you my hand
There'll be no land/ better in the world

*So take me as I am,/ I'm a mess no better
Then hold me tight/ I'm not sure it matters
If we love each other what else is there to do?
But let our love flow like the Euphrates to Ur*

When I turn the cards/ will they tell the truth
Is this game frivolous or something serious
If you roll the dice, blow me some good will
Will you do this, or do you refuse

If I run away/ will you track me down
When I trip and fall can you lift me off the ground
As my eyes wander will you slap me straight
Or will walk away/ leave me to my fate
