

Devil's highway

I want to hold you tight/ Please don't let me go
I hope to make it right/ How I do not know
If you'll take my hand/ I think I'll find a way
Travelin' down, Travelin' down/ The devil's highway

We haven't been together/ Don't know if you trust me
Grab that valise dearest/ And take a trip with me
When I saw you lightning blinded by your beauty
Now I got to go come with me/ Down the devil's highway

All twisty and turning/ Easy to get lost
"Cept there's no turning back/ going forward says the boss
No pot of gold no fortune/ no dreams of better days
Just you and me going/ down the Devil's highway

I think your kisses like angels wings
Caressing me take away my sins
Still there's no saving me/ A sinners all I'll every be
So I got to go come with me/ All the way
You know where I'm going/ down the Devil's highway
