

## Gang of Four

They're a gang of four/ you've seen them  
Boys or Girls, men or women  
The young are loud, the older whisper  
Sometimes brothers, sometimes sisters

G  
C  
F  
Dm/G

Street corners are not safe from them  
Peace and quiet not found  
Ambulances might be louder  
All depends on how they sound

Am  
Dm  
G  
Am

Can't escape them don't even try  
A fruitless endeavor side by side  
They fill the sidewalk you can't get by  
Be content you're along for the ride

Slow down, you've got the time  
Lend an ear to what they're saying  
Might say something or be boring  
They don't know you're paying attention

You hope they're friends or family  
School chums, business partners  
What they discuss might even matter  
But you won't know, that's how it goes

I don't think they'll take over  
Too distracted to get organized  
Can't even walk side by side  
Not really even along for the ride.

*Outro needs to be G ending on C  
I think?*
