

Asleep

Why do I think it's 9-11
What does it mean I'm a month early
My tension rises I don't watch TV
And podcasts are alien to me
chorus;
What has happened in the world since I slept
Does it matter to those who are asleep
I don't know, How to know I don't know

I read some words the news makes it worse
I watch a screen it leaves me confused
I trust the voices shouting at me
But Somewhere inside I don't believe
chorus; Instrumental

Why did I think Iraq was evil
Why are we friends as a nation with them
The people under pressure try to do what's right
I'm sick and tired of believing it's wrong
Fill

If I accept that some must die
How can we say a woman's wish is wrong
Now that you stand a sign in your hand
Don't you know our love is contraband?
